

Winter NewsLetter

Another year has gone by, and we would like to take a moment to thank our customers for their continued patronage and loyalty. To those of you who are new to our website and facility, we welcome you, and would like to inform you of some exciting upcoming events and promotions.

PRESS RELEASE

We proudly introduce our new product lines:

PHC - improves soil chemistry and soil structure. Provides mineral nutrients with added surfactants and hydrogels to address structural and depleted soil problems.

The preferred name in cultured stone. Whether your looking for interior or exterior designs Owens Corning is available in many veneers and trims with a myriad of graceful architectural designs and combinations that are engineered for easy installation, authentic appearance and enhanced to blend with today's materials.

Versa-Lok Retaining Wall Systems provide solid solutions. Available in two attractive textures: classic split-face and Vintage Weathered which has a centuries-old, hand-hewn appearance that's perfect for historic renovations and matching existing stonework.

We have a large selection of winter add mixtures, heaters and thermal blankets. We are prepared with you in mind and have stocked up on sand, salt, snow shovels and ice melt products.

During the winter season, we are closed on Saturdays. However, our product display yard is open for continuous viewing seven days a week throughout the year. Give us a call for special hours of open operation due to upcoming snow storms or hazardous conditions.
